Complete Mobility

✧ **TrenStar**™

TEAMAGRI - A single platform that enhances **visibility** and **productivity** on all your farming activities.

ASSET MANAGEMENT
- ✦ Management of various types of implements, vehicles, equipment and picking tools.
- ✦ Inventory control management and ease of preparation pre-harvest
- ✦ Damage assessment

SCOUTING
- ✦ GPS location of actual scouted location
- ✦ Trap, tree and other scout activities recorded and exported on a Global Gap report
- ✦ Traceability to problem areas with pest name, photo, amount and location to reference to

PACKHOUSE
- ✦ Traceability of bin picked to orchard block, fruit type and variety
- ✦ Automated barcode or RFID in-line weight scan at bin receiving
- ✦ Paperless system at receiving for fruit either from a block or an external producer

PRUNING & SANITATION
- ✦ Row and tree count per pruner
- ✦ GPS enabled visibility of prune progress
- ✦ Traceability to prune quality and pruner capabilities.

HARVESTING
- ✦ Management tool for near-real time picker performance
- ✦ Traceability to picker groups, block, date and variety
- ✦ Yield comparisons per block, type and fruit variety

SPRAYING
- ✦ GPS enabled visibility of rows and blocks sprayed daily.
- ✦ Traceability of chemical, tractor, spray cart, driver and date sprayed
- ✦ Global Gap report
